Travis Schmit, Assistant Highway Engineer, appeared with the Land Use Authority and the NFIP. A concern that needs to be addressed is the requirement for all townships to have planning and zoning through Ward County as well as building permits issued through Ward County. There are townships in the flood plain in which Ward County does not control planning and zoning and the federal government is looking at not underwriting policies for these communities if Ward County is not issuing the flood plain permits. The bottom line is that all building permits will need to come before the county for review and all townships will need to adopt flood plain requirements and adopt Ward County's ordinance.

Moved by Comm. Rostad, seconded by Comm. Weppler to notify the townships of the above-referenced requirements with a deadline of April 30, 2023 for their feedback to the requirements. Roll call; all voted yes; motion carried.

# NDSU Extension Financial Partnership between County and State Base Policy<sup>1</sup>

Effective July 1, 2019

---

NDSU Extension is committed to maintaining nonformal education in all counties if the county provides a financial commitment and an Extension presence is desired by local interests. The financial commitment includes having the **county pay 50% of the salary costs for the Extension agents and all the operating expenses. Operating expenses include office space, travel, telephone, secretarial support and other costs relating to running an office such as paper, copying, mail, office supplies, etc.** Computer equipment and other technology costs may be covered through a combination of state and county funds as determined by both parties. NDSU pays the other 50% of the salaries and all fringe benefits. NDSU provides sick and annual leave payout, most training programs, access to specialists, curricula, educational materials, email and website service, payroll processing, supervision (in collaboration with the county commission), hiring and coaching/mentoring. Annual county budget requests, initiated by the county Extension coordinator in consultation with NDSU Extension administration, are acted upon by the Board of County Commissioners.

NDSU Extension pays the full salary and invoices the county for half. By doing this, the county and NDSU equally share the salary paid to Extension agents and educators. NDSU is the employer of record.

Annual salary adjustments for Extension agents and educators are directed by the North Dakota Legislature, North Dakota State University system and based on annual performance review and periodic market review. Annual performance reviews are conducted with the Extension agent and a county commissioner. Raise considerations are then discussed and determined by NDSU Extension district directors. Consequently, counties are asked to budget salary adjustments for Extension agents according to the raise decisions. Counties automatically are invoiced for salary and raise adjustments. If the county is unable to pay the increase, the balance will be carried until such a time that the county has adequate funding to cover the increase.

County commissioners are invited to collect feedback from county residents prior to evaluation and annual performance review meetings.

<sup>1</sup> This policy was unanimously supported by a committee appointed by the North Dakota County Commissioners Association (NDCCA), North Dakota Association of Counties (NDACo) and the NDSU Extension in October 1998. It was reviewed and updated in consultation with the North Dakota County Commissioners Association Board of Directors in 2004, 2011, and 2019. This policy is intended to be reviewed on a biennial basis.

NDSU does not discriminate in its programs and activities on the basis of age, color, gender expression/identity, genetic information, marital status, national origin, participation in lawful off-campus activity, physical or mental disability, pregnancy, public assistance status, race, religion, sex, sexual orientation, spousal relationship to current employee, or veteran status, as applicable. CRIMINAL JUSTICE INFORMATION SERVICES  
SECURITY ADDENDUM**

**Legal Authority for and Purpose and Genesis of the  
Security Addendum**

Traditionally, law enforcement and other criminal justice agencies have been responsible for the confidentiality of their information. Accordingly, until mid-1999, the Code of Federal Regulations Title 28, Part 20, subpart C, and the National Crime Information Center (NCIC) policy paper approved December 6, 1982, required that the management and exchange of criminal justice information be performed by a criminal justice agency or, in certain circumstances, by a noncriminal justice agency under the management control of a criminal justice agency.

In light of the increasing desire of governmental agencies to contract with private entities to perform administration of criminal justice functions, the FBI sought and obtained approval from the United States Department of Justice (DOJ) to permit such privatization of traditional law enforcement functions under certain controlled circumstances. In the Federal Register of May 10, 1999, the FBI published a Notice of Proposed Rulemaking, announcing as follows:

1. Access to CHRI [Criminal History Record Information] and Related Information, Subject to Appropriate Controls, by a Private Contractor Pursuant to a Specific Agreement with an Authorized Governmental Agency To Perform an Administration of Criminal Justice Function (Privatization). Section 534 of title 28 of the United States Code authorizes the Attorney General to exchange identification, criminal identification, crime, and other records for the official use of authorized officials of the federal government, the states, cities, and penal and other institutions. This statute also provides, however, that such exchanges are subject to cancellation if dissemination is made outside the receiving departments or related agencies. Agencies authorized access to CHRI traditionally have been hesitant to disclose that information, even in furtherance of authorized criminal justice functions, to anyone other than actual agency employees lest such disclosure be viewed as unauthorized. In recent years, however, governmental agencies seeking greater efficiency and economy have become increasingly interested in obtaining support services for the administration of criminal justice from the private sector. With the concurrence of the FBI's Criminal Justice Information Services (CJIS) Advisory Policy Board, the DOJ has concluded that disclosures to private persons and entities providing support services for criminal justice agencies may, when subject to appropriate controls, properly be viewed as permissible disclosures for purposes of compliance with 28 U.S.C. 534.

We are therefore proposing to revise 28 CFR 20.33(a)(7) to provide express authority for such arrangements. The proposed authority is similar to the authority that already exists in 28 CFR 20.21(b)(3) for state and local CHRI systems. Provision of CHRI under this authority would only be permitted pursuant to a specific agreement with an authorized governmental agency for the purpose of providing services for the administration of criminal justice. The agreement would be required to incorporate a security addendum approved by the Director of the FBI (acting for the Attorney General). The security

addendum would specifically authorize access to CHRI, limit the use of the information to the specific purposes for which it is being provided, ensure the security and confidentiality of the information consistent with applicable laws and regulations, provide for sanctions, and contain such other provisions as the Director of the FBI (acting for the Attorney General) may require. The security addendum, buttressed by ongoing audit programs of both the FBI and the sponsoring governmental agency, will provide an appropriate balance between the benefits of privatization, protection of individual privacy interests, and preservation of the security of the FBI's CHRI systems.

The FBI will develop a security addendum to be made available to interested governmental agencies. We anticipate that the security addendum will include physical and personnel security constraints historically required by NCIC security practices and other programmatic requirements, together with personal integrity and electronic security provisions comparable to those in NCIC User Agreements between the FBI and criminal justice agencies, and in existing Management Control Agreements between criminal justice agencies and noncriminal justice governmental entities. The security addendum will make clear that access to CHRI will be limited to those officers and employees of the private contractor or its subcontractor who require the information to properly perform services for the sponsoring governmental agency, and that the service provider may not access, modify, use, or disseminate such information for inconsistent or unauthorized purposes.

Consistent with such intent, Title 28 of the Code of Federal Regulations (C.F.R.) was amended to read:

§ 20.33 Dissemination of criminal history record information.

- a) Criminal history record information contained in the Interstate Identification Index (III) System and the Fingerprint Identification Records System (FIRS) may be made available:
  - 1) To criminal justice agencies for criminal justice purposes, which purposes include the screening of employees or applicants for employment hired by criminal justice agencies.
  - 2) To noncriminal justice governmental agencies performing criminal justice dispatching functions or data processing/information services for criminal justice agencies; and
  - 3) To private contractors pursuant to a specific agreement with an agency identified in paragraphs (a)(1) or (a)(6) of this section and for the purpose of providing services for the administration of criminal justice pursuant to that agreement. The agreement must incorporate a security addendum approved by the Attorney General of the United States, which shall specifically authorize access to criminal history record information, limit the use of the information to the purposes for which it is provided, ensure the security and confidentiality of the information consistent with these regulations, provide for sanctions, and contain such other provisions as the Attorney General may require. The power

and authority of the Attorney General hereunder shall be exercised by the FBI Director (or the Director's designee).

This Security Addendum, appended to and incorporated by reference in a government-private sector contract entered into for such purpose, is intended to insure that the benefits of privatization are not attained with any accompanying degradation in the security of the national system of criminal records accessed by the contracting private party. This Security Addendum addresses both concerns for personal integrity and electronic security which have been addressed in previously executed user agreements and management control agreements.

A government agency may privatize functions traditionally performed by criminal justice agencies (or noncriminal justice agencies acting under a management control agreement), subject to the terms of this Security Addendum. If privatized, access by a private contractor's personnel to NCIC data and other CJIS information is restricted to only that necessary to perform the privatized tasks consistent with the government agency's function and the focus of the contract. If privatized the contractor may not access, modify, use or disseminate such data in any manner not expressly authorized by the government agency in consultation with the FBI.

**CRIMINAL JUSTICE INFORMATION SERVICES**  
**SECURITY ADDENDUM**

The goal of this document is to augment the CJIS Security Policy to ensure adequate security is provided for criminal justice systems while (1) under the control or management of a private entity or (2) connectivity to FBI CJIS Systems has been provided to a private entity (contractor). Adequate security is defined in Office of Management and Budget Circular A-130 as “security commensurate with the risk and magnitude of harm resulting from the loss, misuse, or unauthorized access to or modification of information.”

The intent of this Security Addendum is to require that the Contractor maintain a security program consistent with federal and state laws, regulations, and standards (including the CJIS Security Policy in effect when the contract is executed), as well as with policies and standards established by the Criminal Justice Information Services (CJIS) Advisory Policy Board (APB).

This Security Addendum identifies the duties and responsibilities with respect to the installation and maintenance of adequate internal controls within the contractual relationship so that the security and integrity of the FBI’s information resources are not compromised. The security program shall include consideration of personnel security, site security, system security, and data security, and technical security.

The provisions of this Security Addendum apply to all personnel, systems, networks and support facilities supporting and/or acting on behalf of the government agency.

**1.00 Definitions**

1.01 Contracting Government Agency (CGA) – the government agency, whether a Criminal Justice Agency or a Noncriminal Justice Agency, which enters into an agreement with a private contractor subject to this Security Addendum.

1.02 Contractor – a private business, organization or individual which has entered into an agreement for the administration of criminal justice with a Criminal Justice Agency or a Noncriminal Justice Agency.

**2.00 Responsibilities of the Contracting Government Agency.**

2.01 The CGA will ensure that each Contractor employee receives a copy of the Security Addendum and the CJIS Security Policy and executes an acknowledgment of such receipt and the contents of the Security Addendum. The signed acknowledgments shall remain in the possession of the CGA and available for audit purposes. The acknowledgement may be signed by hand or via digital signature (see glossary for definition of digital signature).

**3.00 Responsibilities of the Contractor.**

3.01 The Contractor will maintain a security program consistent with federal and state laws, regulations, and standards (including the CJIS Security Policy in effect when the contract is executed and all subsequent versions), as well as with policies and standards established by the Criminal Justice Information Services (CJIS) Advisory Policy Board (APB).

**4.00 Security Violations.**

4.01 The CGA must report security violations to the CJIS Systems Officer (CSO) and the Director, FBI, along with indications of actions taken by the CGA and Contractor.

4.02 Security violations can justify termination of the appended agreement.

4.03 Upon notification, the FBI reserves the right to:

- a. Investigate or decline to investigate any report of unauthorized use;
- b. Suspend or terminate access and services, including telecommunications links. The FBI will provide the CSO with timely written notice of the suspension. Access and services will be reinstated only after satisfactory assurances have been provided to the FBI by the CGA and Contractor. Upon termination, the Contractor's records containing CHRI must be deleted or returned to the CGA.

#### 5.00 Audit

5.01 The FBI is authorized to perform a final audit of the Contractor's systems after termination of the Security Addendum.

#### 6.00 Scope and Authority

6.01 This Security Addendum does not confer, grant, or authorize any rights, privileges, or obligations on any persons other than the Contractor, CGA, CJA (where applicable), CSA, and FBI.

6.02 The following documents are incorporated by reference and made part of this agreement: (1) the Security Addendum; (2) the NCIC 2000 Operating Manual; (3) the CJIS Security Policy; and (4) Title 28, Code of Federal Regulations, Part 20. The parties are also subject to applicable federal and state laws and regulations.

6.03 The terms set forth in this document do not constitute the sole understanding by and between the parties hereto; rather they augment the provisions of the CJIS Security Policy to provide a minimum basis for the security of the system and contained information and it is understood that there may be terms and conditions of the appended Agreement which impose more stringent requirements upon the Contractor.

6.04 This Security Addendum may only be modified by the FBI, and may not be modified by the parties to the appended Agreement without the consent of the FBI.

6.05 All notices and correspondence shall be forwarded by First Class mail to:

**CERTIFICATION**

I hereby certify that I am familiar with the contents of (1) the Security Addendum, including its legal authority and purpose; (2) the NCIC Operating Manual; (3) the CJIS Security Policy; and (4) Title 28, Code of Federal Regulations, Part 20, and agree to be bound by their provisions.

I recognize that criminal history record information and related data, by its very nature, is sensitive and has potential for great harm if misused. I acknowledge that access to criminal history record information and related data is therefore limited to the purpose(s) for which a government agency has entered into the contract incorporating this Security Addendum. I understand that misuse of the system by, among other things: accessing it without authorization; accessing it by exceeding authorization; accessing it for an improper purpose; using, disseminating or re-disseminating information received as a result of this contract for a purpose other than that envisioned by the contract, may subject me to administrative and criminal penalties. I understand that accessing the system for an appropriate purpose and then using, disseminating or re-disseminating the information received for another purpose other than execution of the contract also constitutes misuse. I further understand that the occurrence of misuse does not depend upon whether or not I receive additional compensation for such authorized activity. Such exposure for misuse includes, but is not limited to, suspension or loss of employment and prosecution for state and federal crimes.

Beth A. Hart, GS-15, DAF  
Reply to: Sentinel (GBSD) Project EIS  
10306 Eaton Place, Suite 340  
Fairfax, VA 22030

Dear Stakeholder

Pursuant to the National Environmental Policy Act of 1969 (NEPA) (Title 42 *United States Code* § 4321); the Council on Environmental Quality regulations for implementing NEPA (Title 40 *Code of Federal Regulations* [CFR] Parts 1500–1508); and the Air Force Environmental Impact Analysis Process (EIAP) as codified in 32 CFR Part 989, the Air Force has prepared a Final Environmental Impact Statement (EIS) that analyzes the potential environmental consequences associated with the proposed deployment of the Ground Based Strategic Deterrent (GBSD) Intercontinental Ballistic Missile (ICBM) weapon system, called Sentinel, and decommissioning and disposal of the aging Minuteman III ICBM weapon system. The Bureau of Indian Affairs, Bureau of Land Management, Bureau of Reclamation, U.S. Army Corps of Engineers, U.S. Fish and Wildlife Service, U.S. Forest Service, and Wyoming Army National Guard are cooperating agencies for the EIS.

The purpose of the Proposed Action is to replace all land-based Minuteman III missiles deployed in the continental U.S. with the technologically advanced Sentinel system. The Proposed Action is needed to meet national security requirements and to comply with the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Publ. L. 115-232 § 1663, 132 Stat. 2153), which directs the Air Force to develop and implement a strategy “to accelerate the development, procurement, and fielding of the ground based strategic deterrent program.”

In addition to replacing all land-based Minuteman III ICBMs with the Sentinel ICBMs, all launch facilities, communication systems, infrastructure, and technologies would be modernized and replaced as necessary to support the Sentinel system. Decommissioning and disposal activities would include destruction of all Minuteman III weapon systems and associated components to prevent their further use for their originally intended purpose. While certain components and subsystems of the Minuteman III have been upgraded, most of the fundamental infrastructure used today is the nearly 50-year-old original equipment. The Proposed Action would not include generating or disposing of nuclear material, and the number of land-based nuclear missiles would remain unchanged. The nuclear warheads from the Minuteman III system would be used for the Sentinel system. Deployment of the Sentinel system would begin in 2023, extending the capabilities of the land-based leg of the U.S. nuclear triad through at least 2075.

Construction and operational activities would take place on-base and in the missile fields at Francis E. Warren (F.E.) Air Force Base (AFB), WY; Malmstrom AFB, MT; and Minot AFB, ND. Additional construction, maintenance, training, storage, testing, support, decommissioning, and disposal actions would occur at Hill AFB, UT; the Utah Test and Training Range, UT; Camp Guernsey, WY; and Camp Navajo, AZ. Deployment of the Sentinel system would begin in 2023 at F.E. Warren AFB, and be implemented at Malmstrom AFB and Minot AFB over the next 15 years. The proposed Sentinel deployment activities would include the construction and renovation of approximately 1,569,000 square

feet of on-base facilities, and the refurbishment of all 450 launch facilities and 45 missile alert facilities, construction of 62 new communication towers on newly acquired properties, the establishment of approximately 3,000 miles of new utility corridors, and the potential to conduct utility work within the nearly 5,000 miles of existing utility easements throughout the missile fields of F.E. Warren, Malmstrom, and Minot AFBs. During construction, a workforce hub would be established in or near Great Falls and Lewistown, MT; Kimball, NE, and Minot, ND, housing up to 3,000 temporary workers and support personnel each, and 19 centralized construction laydown areas would be established in or near Stoneham, CO; Augusta, Belt, Denton, Judith Gap, Lewistown, Stanford, Vaughn, and Winifred, MT; Kimball and Sydney, NE; Balfour, Bowbells, Garrison, Mohall, Ruso, Stanley, and Wabek, ND; and Albin, WY. While there would be no construction at Camp Navajo, the proposed Sentinel deployment activities would include use of the existing missile storage area during Minuteman III decommissioning and disposal activities.

The EIS evaluates two alternatives to the Proposed Action, the Reduced Utility Corridors Alternative and the No Action Alternative (as required by NEPA). The Reduced Utility Corridors Alternative would replace all land-based Minuteman III ICBMs deployed in the continental United States with Sentinel ICBMs, as would the Proposed Action. And, while it includes most of the elements of the Proposed Action, it also proposes establishing appreciably fewer miles of new utility corridors and reutilizing marginally fewer miles of existing utility corridors. Under the No Action Alternative, the Air Force would continue to maintain and operate the Minuteman III weapon system in its current configuration, and the Sentinel weapon system would not be deployed.

The Draft EIS was published on July 1, 2022, and a Federal Register notice was published on the same date. The Air Force requested that comments on the draft be submitted within 45 days of the notice to ensure their consideration in the Final EIS. The Final EIS includes changes made to the Draft in response to substantive comments received. In addition to the changes in the analysis and content of the EIS, the Final EIS includes responses to all substantive comments received during the 45-day public comment period. These responses are located in Volume II, Appendix B.

To the County Commission  
Ward County  
C/O Marisa Haman, County Auditor/Treasurer  
225 3<sup>rd</sup> St. SE  
Minot, ND 58701

Dear Ms. Haman:

This letter is provided in connection with our engagement to audit the financial statements of **Ward County** as of and for the year ended December 31, 2022. Professional standards require that we communicate with you certain items including our responsibilities with regard to the financial statement audit and the planned scope and timing of our audit, including significant risks we have identified.

#### Our Responsibilities

As stated in our engagement letter dated April 11, 2023, we are responsible for conducting our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS) and in accordance with Government Auditing Standards for the purpose of forming and expressing an opinion about whether the financial statements, with your oversight, are prepared, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit does not relieve you or management of your respective responsibilities.

#### Planned Scope of the Audit

Our audit will include examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. Our audit is designed to provide reasonable, but not absolute, assurance about whether the financial statements as a whole are free of material misstatement, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations. Because of this concept of reasonable assurance and because we will not examine all transactions, there is a risk that material misstatements may exist and not be detected by us.

Our audit will include obtaining an understanding of the entity and its environment, including its internal control, sufficient to assess the risks of material misstatement of the financial statements and as a basis for designing the nature, timing, and extent of further audit procedures, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. However, we will communicate to you at the conclusion of our audit any material weaknesses or significant deficiencies identified. We will also communicate to you:

Ward County  
April 11, 2023

- Any violation of laws or regulations that come to our attention;
- Our views relating to qualitative aspects of the entity's significant accounting practices, including accounting policies, accounting estimates, and financial statement disclosures;
- Significant difficulties, if any, encountered during the audit;
- Disagreements with management, if any, encountered during the audit;
- Significant unusual transactions, if any;
- The potential effects of uncorrected misstatements on future-period financial statements; and
- Other significant matters that are relevant to your responsibilities in overseeing the financial reporting process.

Although we are currently in the planning stage of our audit, we have identified the following significant risks during our audit to date that require special audit consideration:

- Management override
- Cash Reconciliations
- Revenue Recognition
- Budget Compliance

This information is intended solely for the information and use of Board of Directors and management of Ward County and is not intended to be and should not be used by anyone other than these specified parties.

### Healthy Habits on a Budget for Adults

There was a lot of knowledge within the group and great discussion.

### Powerful Tools for Caregivers

Along with facilitators from Fargo and Hebron, **Ellen** started a *Powerful Tools for Caregivers* class. This seven-week class focuses on the caregiver, self-care, how to reduce stress, and how to improve communications under difficult situations.

### Video for Sunnyside Elementary Parents

Sunnyside Elementary School is comprised of students where 68% of the youth receive either free or reduced rate school meals. Their administration requested an educational video to be created for families to help cover strategies to eat well on a budget. **Trisha** created a *Now Serving Tasty Healthy Meals on a Budget* video and families who viewed the video and answered questions received a variety of incentives provided by the school.

### Real Colors

As part of Building Tomorrow's Leaders, **Ellen** delivered the *Real Colors* temperament test to Kenmare's student council members. They learned their personal "color" as well as how to relate to other colors.

## **Veterans Services March 2023 Monthly Report**

### **Summary and Key Points:**

Brock has recovered from his surgery so we are back to working full steam. We attended the Vietnam Veterans day celebration at the sleep in, Minot on March 29, 2023. It was a fabulous turnout and it was an honor to be there on behalf of Ward Co. We continued to stay updated on all VA regulations and new policies.

Below you will find the office numbers for the month of March 2023.

### **Office Numbers:**

**Brad Starnes, Director - 71**

**Brock Gilstad, VSO – 55**

As always, claim appointments are actual claims sent into the VA for monetary compensation. Other functions are done on a walk in basis and are not counted in this tally. Our office sees about 10-15 walk ins a day along with an average of 50 phone calls.

**Future Dates of Events – N/A**

Furthermore, as always, I am extremely grateful to be in this position and will do whatever needs to be done in order for Ward County, ND to be the best in the state for serving our Veteran community. If more information is required or you have a need to discuss any matter, please feel free to reach out to me at any time day or night. If after hours, I can be reached on my cell phone at 731-227-9511 or at the office during normal business hours.

# Ward County Sheriff's Department 2022 Annual Report

# Introduction

The Ward County Sheriff's Department navigated another busy year in 2022. We continue to operate with high numbers statistically for most categories and divisions. We continue to be aggressive in many areas to include fundraising and looking for grants with the overall safety of the citizens of Ward County as our main priority. Our entire staff is always working hard and they are constantly providing results and bringing safety to the Ward County community.

# Patrol Division

The patrol division, as always, is considered the backbone of any department. Patrol contacts consist of the majority of the contacts that Law Enforcement Officers have with the public as they are often the first to respond to most incident calls. The division is overseen by the Captain and is supervised by one Lieutenant and three Sergeants. Additionally the Patrol Division has fourteen deputies assigned with one deputy assigned as the K9 Deputy with partner Baxi. One additional Deputy is assigned as our School Resource Officer. The Patrol Division provides 24-hour coverage, seven days a week, including weekends and holidays.

# Patrol Division

The main duties of the Patrol Division are traffic enforcement, responding to calls for service, traffic crash investigations, responding to crimes in progress, prisoner transports, serving subpoenas and civil process, and responding to alarm calls. Deputies also work extra duties and special events, such as the North Dakota State Fair, the Norsk Hostfest, and other various events. In addition, deputies participated in state-funded grant programs, such as Alcohol Saturation Patrol and “Click it or Ticket.” The department also participates in another grant program where we conduct additional patrols and intelligence gathering within Ward County along the US highway routes going towards the Canadian border.

# Patrol Division

Each year for the past several years, there has been a large number of calls for service.. In 2022, there were **19,486** calls for service, an increase of **341** calls over the prior year. With the increase, that is a daily average of **53.39** calls per day. The following graph depicts a consistent high number in the calls for service over the prior six years.

# All Reported Incidents

# Patrol Division

Because patrol deputies spend most of their time on patrol, they make frequent contacts with the public. Many times these contacts lead to traffic citations. In addition, many of these contacts reveal that persons are wanted or need to be served with civil process. The following graph represents the some of the activity and citations issued by the Department during the past five years.

# Patrol Division

## Traffic-Related Activity

# Accidents

Traffic accidents remain a common call for a Deputy. Property damage accidents make up a majority of the accident calls. Some accidents result in minor damage and do not require that a State Crash Report be completed. In 2022, Deputies were involved in the investigation of a total of **512** accidents, showing a slow increase in accident calls.

# Patrol Division

While on patrol, deputies can find themselves responding to a variety of calls. Some of these calls will require that deputies deal with situations in which people fail to stop and are actively fleeing in a motor vehicle and attempting to elude being caught. Some of the suspects in these cases have active warrants, are in possession of illegal items or are intoxicated. The pursuits can be initiated by Deputies or are due to Deputies assisting other agencies with a pursuit inside Ward County. The following numbers represent the number of pursuits that Deputies were involved in in 2022.

# Patrol Division

## Pursuit Incidents

# Domestic Violence Incidents

Like other areas of responsibility for law enforcement, domestic violence calls have remained a constant however, in 2022 the number of domestic disturbance calls we responded to again slightly decreased from previous years. The domestic violence calls have consistently remained at an alarmingly high number and although we had a decrease, those calls are always some of the most complex and dangerous for everyone involved. The following depicts the steady rate of such calls.

# Domestic Violence

# K9

# K9

The Ward County Sheriff's Department was able to raise funds with the help of several community partners to add a K9 to the Department in June of 2020. Deputy Michael Miller and K9 Baxi have trained hard and produced great numbers to help keep our communities safe. We have witnessed a progressive impact on the protection of the community everyday from these partners.

# K9

Deputy Miller and Baxi were involved in **83** deployments in 2022. Out of those deployments, Baxi had **46** indications and **75** seizure incidents that resulted in **47** separate arrests. Board of County Commissioners  
225 3<sup>rd</sup> St. SE  
Minot, ND 58701

Honorable Commissioners,

The 2022 annual report of the Ward County Tax Equalization Department is a summary of the 2022 assessment roll and a review of what occurred in terms of real estate value, appraisal activity, building permit applications and planning & zoning from January through December 2022. This report will include the total 2022 True and Full value of all taxable property located in Ward County that is not exempt by state law. The True and Full market valuation of taxable real property, property transfers, sales, new construction, and property division and consolidations all combine to give a tax base for Ward County's 2022 property tax year.

All procedures of assessment and appraisal are conducted according to North Dakota Tax Department guidelines, the North Dakota Century Code, and nationally recognized principles of mass appraisal of real property. The Director of Tax Equalization and three Assessors in the Tax Equalization Department hold Class 1 Assessor Certifications from the ND State Tax Department. The Tax Equalization Department is committed to development and use of processes that support integrated data management, providing Ward County with the most current and accurate source of property information. This department strives to provide all Ward County taxpayers with a fair and equitable assessment.

In 2022, the Ward County Tax Equalization office completed residential and commercial reappraisals of two townships, Carbondale and Passport and one city, City of Berthold. Letters were sent out in the spring of 2022 to the property owners. It is the property owner's responsibility to call our office and set up an appointment for an interior/exterior inspection. If the property owner did not set up an appointment the Assessors placed a notice on the front door of the residence, completed an exterior inspection, measured the exterior of the structures and updated the photos.

The Ward County Building Inspector provides services to 48 townships and two cities, City of Kenmare and City of Donnybrook, that have current joint powers agreements with Ward County to provide their permitting authority and a statistical breakdown is included in this report.

The Planning and Zoning area includes 41 townships and the statistical breakdown is included in this report.

The Ward County Tax Equalization office is budgeted for the Director of Tax Equalization, Deputy Director of Tax Equalization, three Property Appraisers, a Building Inspector, an Administrative Assistance and the Planning & Zoning Administrator to conduct the following activities:

- Estimating the market value or True and Full value of over 20,248 properties each assessment year.
- Measuring and listing all new construction.
- Providing data related to legal descriptions, lot sizes, property tax estimates, and building information to all county and city departments and the public.
- Administering over 1000 tax exemptions and tax credits on a yearly basis.
- Explaining, defending, or recommending changes to the assessed value of various properties in abatement proceedings.
- Assisting all county departments in determining market value of land and building as relating to the conducting of county business for foreclosure or sale of county property.
- Administer Manufactured Home taxation as outlined in North Dakota Century Code for over 2300 properties.
- Act as the building permitting authority for 48 townships and 2 cities.
- Planning & Zoning Administrator promotes sound growth and planning policies by preparing, implementing and administering land use plans, policies, rules and regulations for 41 townships.

I would like to thank all of the Tax Equalization office staff for a job well done in meeting the challenges of the department's goals and deadlines this past year.

Noreen Barton  
Director of Tax Equalization

## **2022 Sales Ratio Study**

North Dakota property tax is an ad valorem tax. This means, simply, a tax according to value. The true and full value for tax purposes must reflect the market value of the property. To maintain equitable assessments and achieve an accurate portrayal of the market our office conducts a sales ratio study annually. It is the intent of the ND legislature that local assessors use the results of the sales ratio study as a guide in making and equalizing assessments of property.

The State Board of Equalization adopted a tolerance level of 90 to 100 percent for agricultural, residential and commercial assessments for the 2022 sales ratio study. This means that our final ratio analysis, after adjustments, must have a median between 90 and 100 percent. Adjustments made to the classes of property resulted in the final ratios listed below:

### **2022 Assessment Ratio Study for City of Minot**

|                          | <b>2021 Measurements</b> |                | <b>Tolerance</b> |
|--------------------------|--------------------------|----------------|------------------|
| Median Ratio Residential | 92.5%                    | State Mandated | 90-100%          |
| Median Ratio Commercial  | 94.7%                    | State Mandated | 90-100%          |

The sales ratio study is conducted annually by the ND State Tax Commissioner's Office to insure that the local jurisdictions comply with setting appropriate property values. Every sale of property in Ward County is filed with the state indicating the adjusted sales price and the true and full value. If the prior year sales percentage were not within the tolerance range, which for 2022 was 90-100% of the true and full value, then Ward County would need to decrease or increase the valuations to bring the overall values into compliance. Value adjustments for new construction or exemptions expiring are not considered in these increases.

#### **DEFINITION**

- **Median Ratio:** A measure of central tendency. Median is affected by the number of observations and is not distorted by the size of extreme ratios. The State Board of Equalization, when equalizing residential and commercial property assessments, uses this. Individual ratios of the sales are arranged in order of magnitude, and then the middle ratio in the series is the "Median Ratio".
