Ward County Agenda Items January 16, 2024

A. Cooperative Purchasing Agreement

I have attached copies of the Cooperative Purchasing Agreement for both the State of Minnesota and Sourcwell. Ward County had previously approved a Joint Powers agreement with both the State of Minnesota and Sourcwell. The state auditor had express concerns if counties had the same authorization to enter the agreements as other local government entities, like cities and schools. So during the 2023 legislative session, the legislature granted counties the authority to participate in a cooperative purchasing agreement with other political subdivisions of this state or any other state. Since the law was changed as of August 1, 2023, I thought it was wise to re-sign the agreements with both agencies.

I would need a motion to authorize the chairman to sign the Joint Powers Agreement with the State of Minnesota and Sourcwell authorizing the Cooperative Purchasing Agreement with each entity.

B. Gravel Crushing

Ward County had previously open bids for gravel crushing on March 6, 2023 for with a completion date of April 30, 2024. We received five bids for the crushing 60,000 CY for Class 13 SSP 6 Gravel. We did not approve the low bid from Aggregate Construction at the time of the opening because they were proposing to open a new gravel pit location and had not provided an agreement with the local township for the haul road. Our gravel pit ordinance required that the gravel pit company have an agreement in place with the local road authority prior to opening the pit. The gravel crusher was meeting with the township this summer, but was not able to come to an agreement with the township and the company has since closed. The gravel is needed for a graveling project next year and it would be my recommendation to move forward and award the bid to the second low bidder which would be Sundre Sand and Gravel. Since we are awarding the bid late they have request an extension to July 15, 2024 to complete the pile. It would be my recommendation to award the gravel crushing for 60,000 CY to Sundre Sand and Gravel at a rate of \$13.10/CY out of the Endreson Pit located in section 23-153-85, and located just north of County Road 20.

I would need a motion to award the gravel crushing of 60,000 CY of Class 13 SSP 6 gravel to Sundre Sand and Gravel at a rate of \$13.10/CY out of the Endreson Pit located in section 23-153-85 and the completion date be extended to July 15, 2024

MEMO

Date: January 10, 2024

To: Ward County Commissioners

From: Noreen Wilkie, Director of Tax Equalization

Subject: Agricultural Land Valuation

Pursuant to Section 57-02-27.27 of North Dakota Century Code as amended, I am required to certify to you each year an average agricultural value per acre of the county. The value certified is the average value per acre that must be met by the county for the 2024 agricultural land assessments.

Ward County has historically adopted a 4% - 5% deviation from the minimum allowed tolerance level set for agricultural land valuations by the State Board of Equalization. Ward County's 2024 certified average value per acre from the State Tax Commissioner is \$613.44, a decrease of \$31.33 or a little more than 5.10% from 2023.

The recommendation from the Soils Committee is to adopt Ward County's Average Agricultural Value Per Acre (\$613.44) at 94% of the State Tax Commissioners Certified Value (\$576.63).

Ward County's current average value per acre is \$606.08 as equalized by the County Commissioners in 2023. I recommend that the commission adopt an average valuation of \$576.63, which represents a tolerance level of 94%, which meets the allowed tolerance level set by the State Board of Equalization.

The documentation from the State Tax Commissioner is included with this memorandum and the Soils Committee Meeting minutes from January 09, 2024.

Noreen Wilkie opened the nominations for Vice-Chairperson. David King nominated Arden Haner seconded by Jim Mostad. Moved by Arden Haner for nominations to cease, seconded by Jim Mostad, all voted yes.

Vice Chairman Haner called the meeting to order at 6:05 pm.

Moved by Hagen, seconded by King to approve the agenda and the Soils Committee minutes from January 10, 2023. Roll call; all voted yes, motion carried.

The board members were all provided with the Agricultural Value Per Acre for the 2024 Assessment document that was provided by the Tax Commissioner of the State of ND. Discussion was had about Ward County's valuation of cropland and non-crop land average value. The average value for 2024 for all agricultural land did decrease by a little more than 5.10% (\$31.33) from last year. The 2024 Ward County State average for all agricultural land for Ward County is \$613.44, crop value average is \$807.87 and noncrop value average is \$163.89. The State provides the value to the counties at 100% tolerance level. Wilkie stated Ward County has always strived at the 94% tolerance level for agricultural, residential and commercial. The 94% tolerance level for Ward County for all agricultural land is \$576.63, crop value is \$759.40 and noncrop value is \$154.06

Moved by Hagen, seconded by King to recommend to the Ward County Commissioners 94% of the Agricultural Value per Acre that was received by the state; all voted yes, motion carried.

The approved recommendation will be presented to the Ward County Commissioners on January 16, 2024 for final input and approval.

Wilkie asked the board if there would be some interest in inviting a representative from NDSU Extension Agents and a representative of the local NRCS office to attend a meeting. All board members felt it would be helpful to have some education on how they determine the average agricultural values and information on the soils. Wilkie will reach out to both to see if there is some interest in someone attending.

Motion to adjourn; Moved by Hagen, Seconded by King.

Meeting adjourned at 6:45pm

Subject: Remanded Tax Abatement or Refund of Taxes for 2020 and 2021 for vacant parcels in the City of Minot. The owner of record is Stonehaven Development Inc./55th Holdings, LLC.

Summary

Property owners have the right to appeal their assessment through the form of an abatement per NDCC 57-23-04. The abatement applications are for tax years 2020 & 2021 and 55th Holdings, LLC., has filed the abatements. The list of parcels on the attachment are parcels that a decision needs to be remanded.

Impact

Any financial impact for the township or other governing body should not be considered in the deliberation of the 2020 & 2021 assessment. The determination is to whether the assessment was fair, equitable, and a reasonable estimate of the True and Full Value as defined by NDCC 57-02-01.15 "True and full value" means the value determined by considering the earning or productive capacity, if any, the market value, if any, and all other matters that affect the actual value of the property to be assessed" and 57-02-11.1 "All real property subject to taxation must be listed and assessed every year with reference to its value, on February first of that year".

Recommendation

The applicant was requesting the parcels to be valued as agricultural land and if they don't meet the requirements to be valued as agricultural land then they were requesting a discount amount of the value. The parcels do not qualify as agricultural land per Century Code 57-02 and the discount amount that the applicant is requesting is not market value for the 2020 and 2021 parcels. My recommendation is to deny the parcels in its entirety due to the fact that if the parcels are lowered to the value that is being requested they will not be at market value.

It is my opinion that the properties were adjusted fairly with consideration as compared to other similar properties. Granting of the applicant's request would in fact place the property values for both years (2020 & 2021) below a reasonable estimate of market value regarding similar properties, which existed as of February 1, 2020 for the 2020 abatements and February 1, 2021 for the 2021 abatements.

CHAPTER 57-02 GENERAL PROPERTY ASSESSMENT

57-02-01. Definitions.

As used in this title, unless the context or subject matter otherwise requires:

1. "Agricultural property" means platted or unplatted lands used for raising agricultural crops or grazing farm animals, except lands platted and assessed as agricultural property prior to March 30, 1981, shall continue to be assessed as agricultural property until put to a use other than raising agricultural crops or grazing farm animals. Agricultural property includes land on which a greenhouse or other building is located if the land is used for a nursery or other purpose associated with the operation of the greenhouse. The time limitations contained in this section may not be construed to prevent property that was assessed as other than agricultural property from being assessed as agricultural property if the property otherwise qualifies under this subsection. A property platted on or after March 30, 1981, is not agricultural property when any four of the following conditions exist:

- (1) The land is platted by the owner.
- (2) Public improvements, including sewer, water, or streets, are in place.
- (3) Topsoil is removed or topography is disturbed to the extent that the property cannot be used to raise crops or graze farm animals.
- (4) Property is zoned other than agricultural.
- (5) Property has assumed an urban atmosphere because of adjacent residential or commercial development on three or more sides.
- (6) The parcel is less than ten acres [4.05 hectares] and not contiguous to agricultural property.
- (7) The property sells for more than four times the county average true and full agricultural value.

b. Land that was assessed as agricultural property at the time the land was put to use for extraction of oil, natural gas, or subsurface minerals as defined in section 38-12-01 must continue to be assessed as agricultural property if the remainder of the surface owner's parcel of property on which the subsurface mineral activity is occurring continues to qualify for assessment as agricultural property under this subsection

It is the Ward County Tax Director's opinion that all properties meet at least four of the required conditions to exclude it from assessment as Agricultural Land.

- (1) The subject properties were platted after March 30, 1981 recorded on or after September 10, 2012.
- (2) Public improvements

Water and sewer

Lots located on Sadie Lane, Williams St SE, 14th Ave SE & portions of 60th St SE thru 63rd St SE between 17th Ave SE and 18th Ave SE

Asphalt Street, Water and Sewer

Lots located on sage Dr SE, 15th Ave SE, 47th Loop, portions of 61st St SE thru Williams St SE between 17th Ave SE and 18th Ave SE

- (3) Topsoil is removed or topography is disturbed to the extent that the property cannot be used to raise crops or graze farm animals.
- (4) All parcels are zoned either RI, R2, C1, C2 or R3 which differs from AG zoning.
- (5) Property has assumed an urban atmosphere because of adjacent residential or commercial development on three or more sides.
- (6) The parcel is less than ten acres (4.05 hectares) and not contiguous to agricultural property.
- (7) This condition may also be met depending on the purchase price unsure what the purchase price was. The county average true and full value per acre for agricultural land for 2020 was \$597 and for 2021 was \$603.

Stonehaven

Minot, North Dakota

Summary

CBRE is pleased to offer Stonehaven in Minot, ND to qualified investors and home builders. This is a prime opportunity to develop 300+ acres of residential and commercial land in the Nedrose K-12 School neighborhood on the southeast side of Minot. Recent spikes in home-buying and home building due to the Covid-19 pandemic and continued low interest rates have reduced the inventory of available residential lots in the market. Stonehaven is composed primarily of residential lots that are zoned for single-family and twinhomes which are the type of housing most in demand. With new health care facilities, a four-year university, Air Force base, abundant natural resources, low unemployment rate, regional mall, and a growing population, the future of Minot is bright.

Exhibit A.

The property parcels are each zoned either R-1, R-1A, R-2, R-3, C-1, and C-2. We are making this abatement request for the City Council and County Commission to consider taxing these parcels as agricultural pursuant to N.D.C.C. §57-02-01.

1. "Agricultural property" means platted or unplatted lands used for raising agricultural crops or grazing farm animals, except lands platted and assessed as agricultural property prior to March 30, 1981, shall continue to be assessed as agricultural property until put to a use other than raising agricultural crops or grazing farm animals. Agricultural property includes land on which a greenhouse or other building is located if the land is used for a nursery or other purpose associated with the operation of the greenhouse. The time limitations contained in this section may not be construed to prevent property that was assessed as other than agricultural property from being assessed as agricultural property if the property otherwise qualifies under this subsection. a. Property platted on or after March 30, 1981, is not agricultural property when any four of the following conditions exist:

- (1) The land is platted by the owner.
- (2) Public improvements, including sewer, water, or streets, are in place.
- (3) Topsoil is removed or topography is disturbed to the extent that the property cannot be used to raise crops or graze farm animals.
- (4) Property is zoned other than agricultural.
- (5) Property has assumed an urban atmosphere because of adjacent residential or commercial development on three or more sides.
- (6) The parcel is less than ten acres [4.05 hectares] and not contiguous to agricultural property.
- (7) The property sells for more than four times the county average true and full agricultural value.

b. Land that was assessed as agricultural property at the time the land was put to use for extraction of oil, natural gas, or subsurface minerals as defined in section 38-12-01 must continue to be assessed as agricultural property if the remainder of the surface owner's parcel of property on which the subsurface mineral activity is occurring continues to qualify for assessment as agricultural property under this subsection.

At this point this property is being utilized for farming. While it has been platted, there are no public improvements in place and as such should be assessed as agricultural real estate.

There are parcels in this area that are currently being assessed as Agricultural but our abatement requests are to request a reduction of the rate of tax that has been assigned to the agricultural real estate.

In the alternative if this governing body does not agree that these parcels meet the requirements to be taxed as agricultural rather than their respective tax classification the taxpayer is requesting a discount on the taxable value.
